

1. Student sign-up:

As a student who is looking for a job, I want to create my account so that I can have access to browse job postings on this platform.

2. Students upload portfolios:

As a graduate student who is about to graduate, after creating my account, I want to edit my portfolio to update my information with new skills or project experiences so that employees will see my new abilities and make me more competitive.

3. Admin verifies job posts:

As a system admin, I want to verify and post each job offer that was added by employees so that students can see the newest job posts and choose to apply.

4. Employer post job openings:

As an employer, I want to post my job openings in the public panel with detailed descriptions so that students or job seekers can view on their sides and apply if they are interested.

5. Employer checks student's profile:

As an employer, I want to see the students' or the job-seeker's profiles so that I can find the person I need by myself.
